

SUBDIVISION SITE AND CONTEXT DESCRIPTION AND DESIGN RESPONSE**Subdivision site and context description**

The site and context description may use a site plan, photographs or other techniques and must accurately describe:

- In relation to the site:
 - Site shape, size, dimensions and orientation.
 - Levels and contours of the site.
 - Natural features including trees and other significant vegetation, drainage lines, water courses, wetlands, ridgelines and hill tops.
 - The siting and use of existing buildings and structures.
 - Street frontage features such as poles, street trees and kerb crossovers.
 - Access points.
 - Location of drainage and other utilities.
 - Easements.
 - Any identified natural or cultural features of the site.
 - Significant views to and from the site.
 - Noise and odour sources or other external influences.
 - Soil conditions, including any land affected by contamination, erosion, salinity, acid sulphate soils or fill.
 - Any other notable features or characteristics of the site.
 - Adjacent uses.
 - Any other factor affecting the capacity to develop the site including whether the site is affected by inundation.
- An application for subdivision of 3 or more lots must also describe in relation to the surrounding area:
 - The pattern of subdivision.
 - Existing land uses.
 - The location and use of existing buildings on adjacent land.
 - Abutting street and path widths, materials and detailing.
 - The location and type of significant vegetation.
- An application for subdivision of 60 or more lots must also describe in relation to the surrounding area:
 - Location, distance and type of any nearby public open space and recreational facilities.
 - Direction and distances to local shops and community facilities.
 - Directions and walking distances to public transport routes and stops.
 - Direction and walking distances to existing neighbourhood, major and principal activity centres and major employment areas.

- Existing transport routes, including freeways, arterial roads and streets connecting neighbourhoods.
- Local street network including potential connections to adjacent subdivisions.
- Traffic volumes and movements on adjacent roads and streets.
- Pedestrian, bicycle and shared paths identifying whether their primary role is neighbourhood or regional access.
- Any places of cultural significance.
- Natural features including trees and other significant vegetation, drainage lines, water courses, wetlands, ridgelines and hill tops.
- Proximity of any fire threats.
- Pattern of ownership of adjoining lots.

If in the opinion of the responsible authority a requirement of the site and context description is not relevant to the assessment of an application, the responsible authority may waive or reduce the requirement.

Satisfactory subdivision site and context description

If the responsible authority decides that the site and context description is not satisfactory, it may require more information from the applicant under Section 54 of the Act.

The responsible authority must not require notice of an application to be given or decide an application until it is satisfied that the site and context description meets the requirements of Clause 56.01-1 and is satisfactory.

This does not apply if the responsible authority refuses an application under Section 52(1A) of the Act.

Subdivision design response

The design response must explain how the proposed design:

- Derives from and responds to the site and context description.
- Responds to any site and context features for the area identified in a local planning policy or a Neighbourhood Character Overlay.
- Responds to any relevant objective, policy, strategy or plan set out for the area in this scheme.
- Meets the relevant objectives of Clause 56.

The design response must include a dimensioned plan to scale showing the layout of the subdivision in context with the surrounding area. If in the opinion of the responsible authority this requirement is not relevant to the assessment of an application, it may waive or reduce the requirement.

An application for subdivision of 60 or more lots must also include a plan that meets the requirements of Standard C2. The plan must also show the:

- Proposed uses of each part of the site.
- Natural features of the site and identify any features proposed to be altered.
- Proposed integrated water management system.
- Proposed staging of the subdivision.
